

Pricing Guide

You know what you paid for it and what you want for it, so you set your own price. You can use this as a guideline, but pricing depends a lot on the brand and the shape your item is in. Toys, Equipment, and Infant Items tend to sell best. There is always an abundance of clothing items to pick from in the Newborn – 2T sizes. **Make sure you price to sell!** We suggest anywhere from 1/4 to 1/2 of the original price. Brand names and quality items usually bring more. We strongly recommend you mark your items to be discounted on the half price day. If your item hasn't sold at full price the first day, it will most likely not sell at full price during the discount day.
